REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments (pages 8 and 9 of the response filed 07 July 2007) that Koakutsu et al. fails to teach selecting one of at least first and second independent binarization methods each involving a separate analysis of selected grey scale data, as now required by the independent claims, is persuasive. Furthermore, while Wesolkowski et al. teaches selecting from a plurality of binarization methods, the selection is based upon characteristics of the entire image (such as average value), so that it isn't clear that such a selection could be implemented using a partial image of the negotiable instrument, as required by the claims, so that the claimed invention is not obvious in view of Wesolkowski et al., and the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-3, 4-5, 6 and 7-12 (now renumbered for issue as 1-3, 5-6, 4 and 7-12, respectively) are allowed.
